

Supporting Questions and CPD Code

These questions are designed to be considered alongside the webinar.

1. What two points does Charles Feeny identify as causing the change in climate for mesothelioma claims?
2. Did the Court of Appeal agree that the guidance given in TDN13 of 1970 were the best guidance as to acceptable levels of exposure in the early 1970s?
3. What are the perceived limitations of Williams v University of Birmingham?
4. Did the court in McCarthy v Marks & Spencer accept that EH10 of 1976 had introduced a zero tolerance approach to exposure?
5. Does Charles Feeny believe that McCarthy will be the final word on the interpretation of EH10?
6. What date is advocated as the date of zero tolerance?
7. Is causation no longer relevant in mesothelioma litigation?

CPD code: FLR/PROV*
